EDUCATION

·Vels Institute of Science, Technology & Advanced Studies (VISTAS), Chennai.   **Year: 2023-2026**

   B.Sc. Computer Science with Specialization in Artificial Intelligence   CGPA:8.250

·Sri Krish international school – chengalpattu.   **Year: 2023**

   All India Secondary School Examination.   Percentage:62

·Sri Krish international school – chengalpattu.   **Year:2021**

   All India Senior School Certificate Examination   Percentage:86

EXPERIENCE

- **UPTOSKILLS,** Delhi - **virtual internship**   Certificate link

- DATA ANALYST INTERN   **Duration:** [Jan 2025 – Apr 2025] 3 Months

Responsibilities & Achievements: Here I Worked as a Data Analyst Intern at Uptoskills, collaborating in a team of 12 on multiple data-driven projects involving real-world dataset analysis, data cleaning, visualization, and reporting using Python, SQL, Excel, and Power BI/Tableau, while actively participating in sprint reviews and team meetings to ensure goal alignment.

PROJECT

❖ **MYNTRA – Sales Report Dashboard Analysis**   Live dashboard

  ✓ Developed an interactive sales dashboard for Myntra using Power BI, offering a clear view of monthly performance, brand-wise revenue, category distribution, and regional sales trends.

  ✓ Initiated the process by cleaning and preparing raw datasets in Excel, ensuring consistency, accuracy, and removal of outliers to enable precise analytics across key metrics.

  ✓ Analyzed sales vs. discount trends, highlighting seasonal discount impacts and monthly peaks.

  ✓ Completed the analysis within 2–3 days, ensuring high visual clarity and data storytelling through intuitive graphs, category segmentation, and map-based distribution insights to support targeted marketing and inventory decisions.

TECHNICAL SKILL

Languages: Python, SQL
Developer Tools: VS Code, Jupyter Notebook, GitHub, Microsoft Excel, MS Office
Cloud/Databases: AWS (S3 Bucket), MySQL
Areas of Interest:
1. Artificial Intelligence and Machine Learning
2. Data Analysis / Data Analyst
